The young people take aware

● Respect our parents

● No lives has no problem/Obstacles but be strong, cause to win the problem is heroism it's self

● Listen to the messaging songs like; Rugamba's songs, Masabo nyangezi

● Keep trying and peer the future

● Games and activities are the most powerful To their development

● It is better to study heroism but best to act (I like this methodology)

WE ARE GOING TO SHARE ALL THE CREATIVE GAMES TO OUR FRIEND AT SCHOOL AND COMMUNITIES.

HEROISM IS THE JOURNEY, LET'S GO!

OUR OBSERVATION

Uzabintwari activities are very important in life of youth and country at large

Young people need to meet and play together because it hinders the worse engagement, and forget their home problems, The sector leaders liked these activities and the ways of arts and theater that shows how skilled young people are! But sometimes they lose the initiators to help and keep youth. young people are leaders and courageous to do everything, it very important to let them and give them a space to express their thought mostly through arts and dialogues to share their thought to the police makers and parents

WE GOT CHALLENGES ;

- ✓ Messaging young people through games it's not easy to get message in the game, it just requires long time for them to think of the activities
- ✓ Limited budget for short time used
- ✓ Young people should forget what they are thought; (we wish to keep these activities going on.)
- ✓ Uzabintwari managed to cover the cost of the other addition young people who were not on the budget and wanted to join.
